It is intended especially for coughs, colds, croup and whooping-cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children, for it contains no opium or other injurious drug, and may be given as confidently to a babe as to an adult. For sale by J. Jas. The Thomas Parker No. 2 is nearing completion at St. Louis, and the builder, Captain Thomas Parker, expects to launch her about the first of March. The builder is prominent along the river for the fast steamers he has built, but the one he is at present constructing will be, according to the builder, the fastest craft that has ever floated on the waters of the Mississippi. The hull instead of having the shape of a cigar will be straight and is eighteen inches higher at the bow than at amidships and is twelve inches higher at the stern. It is built for speed and the current of the Mississippi was taken under consideration when the plans for the building of the boat were made. The bow is a sharp, straight stem, and the boat is 120 feet long and a beam of 23 feet on the deck and 22 feet at the bottom.

Beat Out of An Increase of His Pension.
A Mexican War veteran and prominent Editor writes: "Seeing the advertisement of Chamberlain's Cough Remedy, I am reminded that as a soldier in Mexico in '47 and '48 I contracted Mexican diphtheria, and this remedy has kept me from getting an increase in my pension, for on every renewal a dose of it restores me." It is unquestioned as a quick cure for diphtheria and is pleasant and safe to take. For sale by J. Jas. Wood & Son, Druggists.

The National Board of Trade has made a report favoring the extension of Presidential term to six years, the incumbent to be ineligible to re-election. The proposition to make the retiring Presidents life members of the Senate was voted down.

The fact that so many children are now wearing glasses is attracting a great deal of attention. Several physicians are inclined to believe there is no necessity for it, the impression being that time would correct a majority of the defects without the assistance of spectacles for the juveniles.

It requires about four days to make an investigation of the Escurial, the great Spanish Palace, there being such a multitude of rooms and apartments. To travel all the halls, chambers, corridors, lengths and depths of the great palace would require a tour amounting to over a hundred miles.

One of the best-known instances of churches with streets through them is that of St. John the Baptist Church in Bristol, England. The church is situated right over the ancient gateway into the city on the Avon; the towering spire, standing high above the neighboring houses and streets, is a remarkable sight, as one surveys it from the roadway below.

While the Congressional Investigating Committee was hearing the final evidence in the Booz inquiry at West Point, the cadets of all four classes held a meeting and unanimously decided to abolish hazing of every form, as well as the practice of "calling out" fourth-class men. The custom of placing crape on the door of a house where there has been a recent death had its origin in the ancient English heraldic customs and dates back to the year 1100 A. D. The hatchments were of diamond shape and contained the family arms quartered and covered with sable.

In days to come the world will crowd to see Mme. Patti's autograph fan. Though comparatively plain, it is one of those few objects that gather value as time rolls on. Even now many of the signatures written across this dainty piece of chicken skin could not again be repeated. The late Empress of Austria, Alexander II. of Russia, the old German Emperor William I.—to these three signatures now attaches a pathetic interest, the more so when it is remembered that the first two died at the hands of assassins. Mme. Patti was even fortunate enough to obtain not only the signature, but a long sentence in Queen Victoria's handwriting: "If King Lear spoke the truth when he said that a sweet voice was the most precious gift a woman can possess, you, my dear Adelina, must be the richest woman in the world."

A Prominent Chicago Woman Speaks.
Prof. Rosa Tyler of Chicago, Vice-President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies, but I seemed to grow worse and the medicine upset my stomach. WE... HAVE...
Taken an account of stock, and as there are always some good goods in all first-class stocks that become out of date we have arranged a CHEAP TABLE, upon which we have placed such goods, and are now ready to show them. All old residents remember our famous Cheap Tables, and that these goods will be just as represented. This "ad" is a little out of our ordinary way of doing business, but we are still progressive.
